

# SOLUTIONS FOR HANGING PICTURES ON WALLS

## BRASS PICTURE HOOKS

Easily and securely hang items on walls. Ideal for hanging a wide variety of objects on timber studded, plasterboard walls. Load rating into plasterboard 5 kg.

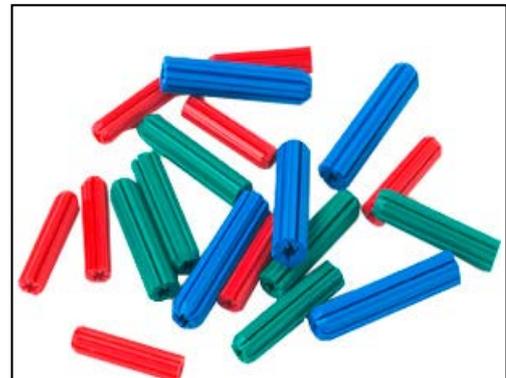

## COMMAND HOOKS

Self adhesive, damage-free hanging. Strong hold, removes cleanly, and easy to apply. Works on a variety of surfaces. Weight Capacity: 2.2kg

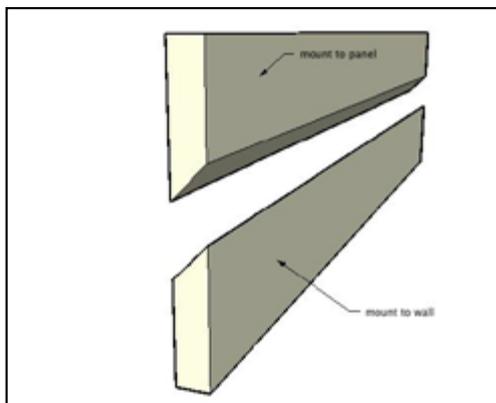

## WALLMATE ANCHORS

Wallmates are a self drilling plasterboard (Gyproc) anchor for use in cavity walls. These can support large pictures, up to 10kgs per plug.

## PLASTIC WALL PLUG

A lost cost fitting that is used with 8 gauge screws for fixing into solid masonry. This solution can support very heavy pictures. Increase the gauge of the screws for pictures weighing over 30kgs.

## MDF SPLIT BATTENS

Split battens or french cleats are one of the best and safest ways to hang large pictures and mirrors. The pictures hang very flat against the wall and leveling of the pictures is easier than with other hanging methods.

## ARTITEQ HANGING SYSTEM

ArtiTeQ hanging systems offer flexibility of creating innovative arrangements, and the versatility to renew them without difficulty, or damage to walls. However, pictures can 'hang out' from the walls considerably.
